Examiner's Statement of Reasons for Allowance

1. This action is responsive to Applicant's amendment after non-final filed March 31, 2005.

Response to Arguments

2. Applicant's arguments, filed concurrently with the amendment after non-final filed on March 31, 2005, with respect to claims 1-14 have been fully considered and are persuasive. The rejection of these claims under 35 U.S.C. § 102 and 35 U.S.C. § 103 as being unpatentable over the combination of Carpenter-Smith, Baisley, Patterson, and Mili's disclosures is withdrawn.

Examiner's Statement of Reason(s) for Allowance

3. Claims 1-14 are allowed.
4. The following is an examiner's statement of reasons for allowance:
The prior arts of record: Carpenter-Smith, teaches a computerized modeling system, for physically transforming a system or process into a visual representation. Baisley teaches a computer-implemented method for converting a UML rendering of an RSM-based metamodel to a UML rendering of a MOF-based metamodel. Mili teaches multilevel abstraction using metamodeling. And Patterson teaches a method of modeling networked computer system. However, none of them, taken alone or in combination, teaches the following features of using **a first specification language for**

defining the various elements of a drawing, and a second specification language for defining mapping between drawing icons and objects stored in an object repository of the software system in such a manner as recited in each of independent claims 1, 6, and 9, thus all the dependent claims are also allowed.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
